Conference attendees receive discounted rate!

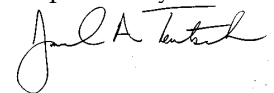

The New Hampshire Lakes Association (NH LAKES) cordially invites you to attend the 2010 Lakes Congress on **Friday, June 25, 2010**, at the Squam Lakes Natural Science Center in Holderness, NH, just steps away from beautiful, and famous, Squam Lake.

The theme of the 2010 Lakes Congress is "*Lake Management and Protection in Action.*" This seventeenth Lakes Congress offers an excellent opportunity for lake enthusiasts, lake association members, state agency personnel, researchers, lake and watershed management professionals, and political leaders to exchange information, ideas, and experiences.

The Lakes Congress also introduces new approaches, products, and services to help us all work together to better manage and protect lakes and ponds.

If you haven't been on Squam Lake, this is your chance as two boat field trips will be offered. And, you'll have a chance to explore the Science Center's nature trails at a discounted rate!

Hope to see you there!

Jared Teutsch, President

Lakes Congress Exhibitors:

Aquatic Control Technology, Inc.
Belknap Landscape Company, Inc.
Geosyntec Consultants, Inc.
New England Milfoil
Vanasse Hangen Brustlin, Inc.
Wastewater Alternatives, Inc.
And, many more!

Members dedicated to protecting lakes
